to the use of an external input to the Function Generator through the input jacks on the rear panel When a modulated (Mod) waveform is selected, the signal produced by the Function Generator will be multiplied by the signal from the external input Change the frequency of the Function Generator's signal with the Frequency Adjust knob

5 MHz FUNCTION GENERATOR - Amazon Web Services

The B+K Precision Model 4011A Function Generator is a versatile signal source which combines several Additionally, the instrument provides the added convenience of a built-in frequency counter This permits more accurate determination of output frequency than is possible with a simple calibrated dial

AFG1022 Arbitrary Function Generator Quick Start User Manual

AFG1022 Quick Start User Manual iii Preface This manual describes the installation and operation of the Tektronix AFG1022 Arbitrary/Function

Generator along with basic operations and concepts

HP 3311A FUNCTION GENERATOR MANUAL PDF - Amazon S3

Get hp 3311a function generator manual PDF file for free from our online library PDF File: hp 3311a function generator manual HP 3311A FUNCTION GENERATOR MANUAL PDF hp 3311a function generator manual are a good way to achieve details about operating certain products Many products that you buy can be obtained using instruction manuals

Dual-Channel Arbitrary Waveform Generator User Manual

The product is dual-channel multi-function generator which combines Arbitrary Waveform Generation and Function Generation The product introduces Direct Digital Synthesizer (DDS) technology to provide stable, precise, pure and low distortion signal The user-friendly interface design and panel layout bring exceptional user experience

Model DS360 Ultra Low Distortion Function Generator

DS360 Ultra Low Distortion Function Generator Safety and Preparation for Use WARNING! Dangerous voltages, capable of causing injury or death, are present in this instrument Use extreme caution whenever the instrument is cover is removed Do not remove the cover while the unit is plugged in to a live outlet Caution

Function Generator and Arbitrary Waveform Generator ...

Function and Arbitrary Waveform Generator Function Generator and Arbitrary Waveform Generator Guidebook Author: Don Peterson & B&K Precision Subject: Use and applications of function generators Keywords: Arbitrary Waveform Signal Function Generator Sinewave Squarewave How to

The Oscilloscope and the Function Generator

The Oscilloscope and the Function Generator: Some introductory exercises for students in the advanced labs Introduction So many of the experiments in the advanced labs make use of oscilloscopes and function generators that it is useful to learn their general operation Function generators are ...

Agilent 33250A User's Guide - RIT

Agilent 33250A at a Glance The Agilent Technologies 33250A is a high-performance 80 MHz synthesized function generator with built-in arbitrary waveform and pulse capabilities Its combination of bench-top and system features makes this function generator a versatile solution for your testing requirements now and in the future

FUNCTION - Make Noise

Voltage Controlled Sustained Function Generator (A/S/R Envelope) A gate applied to the Signal Input starts the function which rises from 0V to the level of the applied Gate at a rate determined by the Rise parameter The function Sustains at that level until the Gate signal ends, then Falls from that level to 0V at a rate FUNCTION Manual

33500B and 33600A Series Trueform Waveform Generators

Find us at www.keysight.com Page 2 33500B and 33600A Series Trueform Function / Arbitrary Waveform Generators - Easily generate the full range of signals you need for the most demanding measurements - Test your devices with confidence that the waveform generator is ...

Keysight 33210A 10 MHz Function/Arbitrary Waveform ...

function generator to Keysight Technologies for servicing, or for servicing it yourself This chapter also contains a list of replaceable parts for the

function generator and how to order the parts Backdating Chapter 7 describes the differences between this manual and older issues of this manual

Agilent 33120A 15 MHz Function / Arbitrary Waveform ...

Function generator is addressed to listen or talk over a remote interface Function generator is in remote mode (remote interface) Function generator is waiting for a single trigger or external trigger (Burst, Sweep) AM modulation is enabled FM modulation is enabled Function generator is set for an external modulation source (AM, FSK, Burst)

Agilent 33220A 20 MHz Waveform Generator

function generator's capabilities and operation You will find this chapter useful whether you are operating the function generator from the front panel or over the remote interface Remote Interface Reference Chapter 4 contains reference information to help you program ...

Agilent 33500 Series 30 MHz Function / Arbitrary Waveform ...
