Chop Wood Carry Water makes examples of timeless wisdom accessible. However, I found the story and prose a little too juvenile and, ironically, it seems the author neglected the process of becoming great as the book is littered with spelling mistakes. Ultimately, there are some valuable lessons in this book and would be useful for children as an entry point into philosophy.

I stack directly on my flagstone because it doesn't hold water. Do not stack directly on soil or grass if you can help it because that'll rot the wood AND it'll be filled with bugs who happily house themselves in your pile. Just place a couple of long 2x4s down 12" apart and stack your wood on that to keep it off the ground and dry. Put any weirdly shaped logs that just won't fit ...

When pressure treated the wood is saturated with water that carries the chemical soup into the wood, causing it to swell, and if done properly the wood should be re-dried in a kiln, and then it gets sold as KDAT (kiln dried after treatment) Like most retail sellers Home Depot does not buy KDAT pressure treated so it will shrink massively if nailed down wet with the chemical soup. Now Western ...
